

Aerosol

Ergosol™

Ergosol™ is a trigger actuated aerosol sprayer offering flexibility and comfort that's ready to use. It's the first off-the-shelf sprayer with the aesthetics and performance functionality of a customized solution.

With Ergosol, we've combined a unique look and functionality to create a universal design that can be used for a variety of products. With fewer parts than custom solutions, brands can quickly and easily convert from traditional push-button aerosol sprayers. Ergosol fits almost any can size, provides a variety of spray patterns to choose from, and is designed to reduce finger fatigue, allowing for a better consumer experience.

Technical features & benefits:

- Ergonomic easy-to-use design
- Nozzle design reduces finger impingement
- Color customization by component
- Simplified 3-piece aerosol actuator (grip, orifice cup and integrated cap/trigger)

Applications:

- Auto
- Home
- Garden
- Laundry
- Professional
- Air
- Paint
