

**PurePress™**

## Purity // Protection

More than anything, beauty consumers expect their product dispensers to be clean, convenient and controlled. PurePress™ delivers all this and more. Featuring all-plastic valving, a metal-free fluid path and an integral cap, PurePress protects your formulation while also protecting against spills. And, with one-touch dispensing, it brings customers the easy and controlled experience they're after.

# PurePress™

Low-output dispensing that earns high marks

- Easy, one-hand, one-touch dispensing
- Integral cap with living hinge to ensure cleanliness
- Pure Path™ technology for a metal-free fluid path to protect formulations
- Ideal for facial cleansers, astringents, antiseptics, hair care and polish removers
