

**SD®400 & SD®800**

Powerful // Reliable

Demanding formulations need a dispenser that delivers. SD®400 and SD®800—our two largest output dispensers—build confidence through consistent and reliable performance. Designed to work with anything from liquid soaps and lotions to shampoos and hair products, SD400 and SD800 set the stage for a positive dispensing experience every time.

# SD<sup>®</sup> 400 & SD<sup>®</sup> 800

Consistent dispensing for even the most challenging formulations

- Compatible with highly aggressive formulations including pumice
- Extremely low profiles require no special shelf heights when stacking
- Threaded head-to-chaplet configuration prevents “pop-up” during shipment
- Completely leak-proof dispensing system
