

## **Mark VII® Max Blossom** Fine Mist Sprayer

Delicate // Propellant-Free

Mark VII® Max Blossom fine mist sprayer is a propellant-free, ultra-fine mist sprayer that provides a more delicate and premium impression compared to other spray offerings. Its elongated spray pattern distributes smaller micro droplets, allowing for a drier skin application. Mark VII® Max Blossom's propellant-free design offers brands looking for aerosol alternatives a more sustainable spray option. It also is capable of refills, helping reduce product waste.

# Mark VII<sup>®</sup> Max Blossom
