

D1™

# Dynamic // Differentiated

Looking for a high-performance dispensing solution for your next high-output application? D1™ is ideal for high-volume formulas. It delivers consistent performance and offers you flexibility. It can be customized to output ranges from 7 ml to 30 ml, mounts to a range of closures and caps, and has an optional design for disassembly and cleaning. Get the most out of your next high-output application with D1.

## Experience consistent performance and dynamic design

- Designed for high-output applications like shampoos, conditioners and body washes
- Water-shielding design stops water ingress and prevents bacteria growth
- High-output, high-profile
- Simple one-hand operation
- Special configurations allow lock-down (closed) shipping position
- Internal and external restrictor clips available to meet your desired output
