

P2000™

Performance // Appearance

Strike a chord with the sophisticated design and performance of P2000™. Featuring our Pure Path™ metal-free fluid path, this beauty and personal care dispenser gives your most sensitive formulas the extra protection they need. Add in viscosity flexibility, superior priming capabilities and an array of aesthetic options, and you have a dispenser that is sure to raise the profile of your product.

P2000™

The perfect balance of powerful performance and eye-catching design

- Wide range of styles available with or without standard heads
- Ideal for liquid soaps and lotions, and metal-sensitive and high-viscosity formulas
- Secure lock-up design
- Pure Path™ technology for a metal-free fluid path
- Extra protection for sensitive formulas
