

Designed with  LifeCycle™ Technology

ReVive™ 2cc

Superlative // Sustainable

ReVive™ 2cc is made from 100% polyolefin, with no metal spring, to vastly improve recycling stream compatibility for PET, HDPE and PP bottles. Designed with LifeCycle™ Technology, it is both RecyClass and APR certified. ReVive 2cc is ISTA 6A certified, which ensures it's capable of withstanding normal hazards associated with the e-commerce shipping and delivery process. Elevate your brand with customizable heads and closures to deliver flawless performance across lotions, soaps, creams and gels. With three tailored spring options and two tube types, ReVive 2cc can adapt seamlessly to your product's viscosity needs.

ReVive™ 2cc

Recycling Made Easy

- 100% polyolefin
- Fully recyclable on PET, HDPE and PP bottles
- ISTA 6A e-commerce certified on 28 oz / 828 ml bottles without shipping clip
- Complimentary lab services to help select optimal spring
- Assessment of force to actuate head return speed, stroke to prime, output measurement and reliability
