

Designed with  LifeCycle™ Technology

Pearl® 2

Enhanced Sustainability // Evolved Performance

Pearl® 2, our next-generation airless system, uses our LifeCycle™ technology to deliver a more sustainable dispensing solution. Featuring a patented plastic spring and 100% polyolefin design, Pearl® 2 eliminates materials that disrupt today's recycling streams. Its airless design also ensures excellent performance across a range of formulas and viscosities. A beautiful array of color and decoration options capture attention, while a travel friendly, e-commerce design help push your brand further.

Pearl[®] 2

Improved recyclability dispensing for the modern-day consumer

- Enhanced sustainability with elimination of non-recyclable materials
- High single material concentration: 98.6% PP and 1.4% PE
- PCR compatible
- Superior protection against oxidation, enabling preservative-free, natural ingredients
- ~ 95% evacuation rate
- High compatibility across formulations and viscosities
- Broad decoration and color options
- E-commerce certified*
- Vacuum tested for leak-free, on-the-go travel

Heads glossy finish

Standard

Closures
