

Iridya®

Precision // Ease

Iridya® is a breakthrough multidose eye dropper designed to precisely apply preservative-free formulations for a range of viscosities. Its advanced flow control system makes adapting to increased or decreased viscosity needs simple for even the most difficult formulations, including emerging trends such as gels and suspensions. With its elongated tip, exceptional ergonomics and NO-JET technology, Iridya ensures an easy, consumer-friendly experience. And, its proven formula protection and broad compatibility enable brand owners to deliver more secure dosing, drop after drop.

Give your patients accuracy down to the drop

Consumer Friendly

- Familiar squeeze-bottle dropper design
- Consumer-preferred design validated by qualitative testing
- Elongated tip for ease of use and precision
- Laser welded safety seal for security
- Tamper-evident tear-off strip
- Overcap for prolonged use and on-the-go lifestyles

Ergonomically Efficient

- Low squeeze force
- NO-JET technology for clean experience
- Controlled application for exact dosing

Industry Trusted

- Drug Master File DMF #34286
- Compatible with low to high viscosities, including gels, suspensions and difficult formulations
- Delivery system for both over-the-counter and prescription drugs
- Validated sterilisation supply chain for device and bottle
- Designed to adapt easily to existing filling lines
- Designed and challenge-tested for preservative-free formulations
- Metal-free liquid path
- Microbiological safety value prep

Output 30–40 µl, depending on formulation

Overcaps/ Hoods

Bottle Makes White and transparent bottles available

Senior-friendly material for low bottle squeeze force

Bottle Sizes 5 ml
10 ml
