

Designed with  LifeCycle™ Technology

ERA™

Sustainable // Compatible

ERA™ is the next generation cosmetic engine designed to elevate eco-friendly packaging. This fully recyclable, all plastic pump system redefines premium dispensing by delivering both sustainability and high-end performance. Designed with advanced LifeCycle™ Technology, ERA ensures compatibility across a wide range of formulas and delivers an exceptional 95% product evacuation rate. Its sleek, compact travel-friendly format blends premium aesthetics with high functionality, making it ideal for on-the-go lifestyles. With built-in flexibility for future innovation, ERA empowers brands to meet consumer demand for eco-conscious packaging without compromising performance or luxury.

A fully recyclable airless pump-on-tube solution

- Enhanced sustainability
- 100% polyolefin pump—with PE tube, up to 98% PE
- Airless pack ensures a minimum 95% evacuation rate and superior protection against oxidation, enabling the use of preservative-free and natural formulations
- Suitable for wide variety of formulas (skincare, suncare, makeup, haircare and more)
- High performance dispensing
- Outstanding soft actuation
- Compact and versatile engine
- Designed for e-commerce/on-the-go format
- Convenient for 360° application
- PCR options available
