

MaxiDose

Controlled // Sustainable

The MaxiDose dispensing closure range combines convenience, functionality and sustainability for effortless food and sauce delivery. Available in a wide variety of sizes, designs, and orifice options, these polypropylene closures elevate the consumer experience while meeting the technical demands of food applications—from sauces and dressings to syrups, marmalades, and more. Select versions feature our proprietary 100% recyclable valve technology, delivering clean, controlled dispensing while enhancing overall packaging recyclability. Whether for table-top use, on-the-go or food service, MaxiDose offers versatile, brand-ready solutions across the full size range.

MaxiDose

Adding value by valve solutions

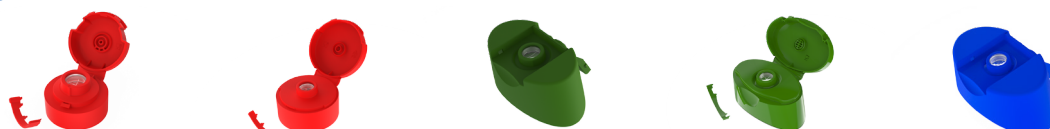

- Broad range of food applications across multiple viscosities; honeys, syrups, marmalades, sauces, dressing
- Fully recyclable design—100% polyolefin
- PP mono-material closure
- Clean cut-off and anti-drip performance
- Optimized for e-commerce and shelf displays
- Easy to actuate, even with thicker formulas
- Almost infinite range of colours
